See other side for additional instructions >

Tap to turn your therapy off.

THERAPY button

Tap to view or adjust your therapy.

••••• BATTERY button

Tap to view your detailed battery status.

Turn therapy off/on

Note:

• You will need your communicator held over your neurostimulator for this.

To turn therapy off: On the HOME screen, tap the OFF button. Tap to confirm you want to turn off therapy in the pop-up message.

2 To turn therapy on: On the номе screen, tap the Turn Therapy On button.

How to check your battery status

- On the **HOME** screen, tap the **BATTERY** button.
- 2 The **BATTERY** screen shows the status of three different batteries:
 - My Battery the battery level of the neurostimulator, the device implanted in your body. If you have two neurostimulators implanted, you can view the battery level of the other device by switching to the other device.
 - Communicator Battery the battery level of the communicator, the device that you hold over your neurostimulator.
 - Handset Battery the battery level of the handset, the device that runs the DBS app.

Note:

• You can also tap the Menu button (\equiv) and tap **Battery**.

Changing groups

Notes:

- You will need your communicator held over your neurostimulator for this.
- Your clinician may have set up groups, which are preset therapy

options that you can choose from. If available, changing groups is a way for you to quickly adjust your therapy.

- On the **HOME** screen, tap **THERAPY**.
- [•]2 Tap the GROUP button.
- Choose the group that you want.

After choosing a group, the **THERAPY** screen for that group will appear. This means you have successfully changed groups.

Adjusting stimulation

Notes:

- You will need your communicator held over your neurostimulator for this.
- If it is available to you, you can raise and lower the level of your therapy. You may not be able to adjust therapy. Your DBS clinician will decide whether to provide you with this option.
- Your clinician may have used Group Naming if feature is available (dependent upon the software version of your handset)
- On the **HOME** screen, tap **THERAPY**.

7 Adjust your therapy up and down using the arrow buttons.

- If an arrow turns gray, you cannot adjust therapy any further in that direction.
- Between the arrow buttons, Left is the left side of your body and Right is the right side.
